

SWIMMING ETIQUETTE

Before swimming

Reserve your time slot online and take a soapy shower before arriving.

Upon your arrival

Wash your hands and wear your mask before going to the reception desk. Make sure you keep your mask on at all times (except in the pool!)

Reminder: spectators are not allowed on the premises.

Free swim

Have fun! You can exercise, swim short distances and jump into the water.

Stay 2 meters away from other swimmers. Do not share equipment.

Lap swim

Observe the other swimmers' speed and choose the appropriate swimming lane for yourself.

Swim on the **right**-hand side of the corridor and swim near the cable.

The overtaking is done in the **center** of the corridor. To pass a swimmer, announce your intention by giving them a gentle pat of the foot.

If a swimmer wants to pass you, slow down and stick to the right.

Passing and gathering are **prohibited** at the end of the swimming lanes.

Leave the ends of swimming lanes **free** for turns.

Be aware of your surroundings! If a collision occurs, check to see if the other swimmer is injured, apologize and be courteous!
